-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form. The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

Correction is required.

2. Claims 34-66 are objected to because of the following informalities:
3. As to claim 34, line 4; claim 52, line 5, "apriori" is objected to because it's unclear what "apriori" is.

As to claim 52, lines 8-9, there appears to be missing a word --performing-- before "said at least one pseudorange selection cycle". Appropriate correction is required.

Claims 35-51, 53-66 depend from the objected antecedent claims.

4. Claims 34-66 would be allowable if rewritten or amended to overcome the objection(s).
5. The following is an examiner's statement of reasons for allowance: the examiner found no teaching in the prior art that would render obvious the claimed apparatus and a method for determining a location at which ranging signals from at least three

satellites have been received including the steps of "determining said location utilizing pseudoranges selected, wherein said at least one pseudorange selection cycle includes an initial selection cycle comprising the substeps of: determining a first pseudorange which with respect to said initial location uncertainty area, determining all pseudoranges associated with at least two additional satellites, forming a set of pseudorange vectors, forming a set of selected pseudorange vectors, wherein at least when said set of pseudorange vectors includes plural vectors, said selecting includes evaluating each vector in said set of pseudorange vectors according to a predetermined rule for initial vector selection", claim 34, lines 7-24.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dao L. Phan whose telephone number is (571)272-6976. The examiner can normally be reached on M-F 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza can be reached on (571)272-6979. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
